SPECIFICATION

SIDE HINGED DOORS

Unless specified otherwise at the time of order doors will be made as follows-

First opening door to be on right as viewed from outside.

Certain sizes will require the use of infill panels- see table.

Side hinged doors **opening out only** will have draught seal to sides and top internally.

Clear opening of steel frame will be 40mm less in width and 20mm less in height than Frame Opening Size. (Please note the depth of door panel may also reduce clear opening if the opening travel of door leaf is restricted.)

Lock mechanism will be Roller Bolt Night Latch.

Tower bolts will be fitted to top and bottom of 2nd leaf.

PERSONNEL DOORS

Unless specified otherwise at the time of order doors will be made as follows-

Doors will open out with hinges on the left hand side as viewed from outside.

Certain sizes will require the use of infill panels- see table.

Lock mechanism will be Roller Bolt Night Latch.

RETRACTABLE DOORS

Locking will be 2 point slam latch with euro profile lock.

Handle in the bottom third of door panel. Drive through clearance will be reduced by mechanism- measurements can be calculated once door sizes are known.

CANOPY DOORS

Locking will be 3 point slam latch with euro profile lock.

Handle in the top third of door panel. In fully open position top of door will reach 52" into the garage from the back of the frame.
